ROADS AND BRIDGES MONTHLY REPORT MAY 2014

Cuba Road Bridge - Initial Phase II Engineering work has begun following receipt of written authorization by IDOT.

2014 Program Update - In addition to the previously announced roads slated for resurfacing:

Ridge Road, north of Merri Oaks
Plum Tree Road east of Ridge Road
Steeplechase Road
Meadow Hill Road

Healy Road has been added to this year's program due to extensive damage from this past winter which has totally destroyed the surface.

Patching and repairs will begin in early June to village roads.

Illinois Route 62/Algonquin Road - We are awaiting a response from IDOT re: the letter approved on April 30, 2014.

Haeger's Bend Road - A public hearing on June 10, 2014 at 7 pm at the Village Hall will present several options for Haeger's Bend Road resurfacing and improvements. A court reporter will be available to take comments as well as comment forms to be completed and returned.

Oak Lake Drainage Project - Dan Strahan has followed up all the points raised by Mr. Martin on May 4. A copy of his response is available if anyone wants to read it. The Village Attorney has gone back to the original Plat of Subdivision and determined that the Village has the right to work within the existing easement. The Village Arborist has met with Dan on site and issued his report on the impact (none anticipated) to the existing large oak tree. I have contacted Nick Sauer, our Lake County Board Member who was called in on this problem by another resident. Dan has provided Nick Sauer the revised engineering plans and Nick has contacted Mr. Martin. Pending his reply, we will decide how to proceed.

Patty Meroni,
Chair, Roads and Bridges
